

THE BENEFITS

EASY DIY INSTALLATION

ACOUSTIC INNOVATION

Our advanced acoustics solution ensures a serene and peaceful pool side ambience, allowing you to enjoy the soothing sounds of water without the disruption of equipment noise.

ENHANCED LEVEL OF PROTECTION

Engineered to counteract the detrimental effects of UV sunlight and rain, our solution ensures unparalleled durability and longevity for your equipment investment.

MODERN ELEGANCE REDEFINED

A sleek modular design that compliments your pool side and keeps your machinery protected and out of sight.

ADAPTABLE SIZES

Designed for effortless accommodation of additional equipment, you can extend your equipment space by up to 2.1 metres using the modular extension panels.

SPECIFICATIONS

- Powder coated double dipped galvanised steel
- Matt Black
- Gas strut on both box lid and extension models
- Easy to install instructions
